The following is an examiner's statement of reasons for allowance: As pointed out by applicants, Fujita *et al.* (US 6,884,546) do not disclose the presently claimed amounts of unsaturated cyclic carbonate in relation to the amount of anode capacity. The Terminal Disclaimer has removed the obviousness-type double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
